MLT Inverters

1. Background

MLT Inverters is a division of MLT Drives, the oldest designer & manufacturer of solar hybrid inverter systems in Southern Africa, founded by Dr Michel Malengret in 1986. Based in Africa, we are in a unique position to offer unmatched support and services to our clients. Our strong research & development focus results in market leading innovation & unique, reliable products. We pride ourselves on local, trusted power solutions.

2. Outputs

MLT inverter produces locally designed and manufactured storage-and solar-based inverters from 3 to 250kW.

3. Location of the project

MLT inverter is located at Kenilworth, Cape Town, (16.4 km) away from Cape Town International Convention Centre.

4. Partners in the project

Partners are MLT Inverters.

5. Replicability

South Africa has four inverter manufacturers and assemblers, three of whom are located in the Greater Cape Town region.

6. Detailed description

Locally designed and manufactured Storage & Solar Inverters
