

# The *Lima-Paris Action Agenda* (LPAA)

**SAIREC**

*COP21 : renewables and Solution Agenda*

*5<sup>th</sup> of October 2015*

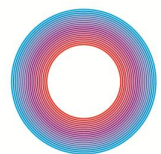

# LPAA – What is it ?

- **Background :**
  - The Decision 1/CP.20 ‘Lima Call for Climate Action’. «OP 21. The Conference of Parties [...] encourages the Executive Secretary and the President of the Conference of the Parties to convene an annual high level event on enhancing implementation of climate action ».
  - The New York Climate Summit (Sept. 2014).
  - Workstream 2 discussions and TEM’s process.
- **The 4<sup>th</sup> pillar of the “Paris Alliance” :** France objective is, in December 2015, to achieve a **“Paris Alliance”** based on four components :
  - Negotiation of a universal, legally binding **agreement**;
  - Submission by all countries of their **national contributions** prior to COP21;
  - The **financial component**, which should enable funding of the transition towards low-carbon, resilient economies.
  - Strengthening of the multi-partner initiatives of the **Action agenda** ;

- **Concretely, the Lima-Paris Action Agenda aims at :**

- 1 / promoting international cooperative initiatives with thematic ambitious commitments;**
- 2 / encouraging non-state actors to make commitments before Paris alongside the States, and register them on the NAZCA platform;**
- 3 / organizing an unprecedented sequence of events in Paris to give visibility and support to the climate agreement.**

# LPAA – How to join ?

**States :** States can engage by...

- **Joining** or partnering with initiatives, either to get some support for accelerated domestic action or to bring national expertise and assistance
- **Encouraging** domestic non state actors to take individual commitments or join networks and existing initiatives,
- **Launching** new initiatives.
- **Working** with sub-national actors in a vertically integrated approach

**Sub-national actors :** Sub-national actors can engage by...

- **Committing** to GHG reductions, climate planning, climate resilience or taking sectoral commitments;
- **Joining** large-scale cooperative and multi-stakeholder initiatives;
- **Setting up** new partnerships
- **Working** with States in a vertically integrated approach

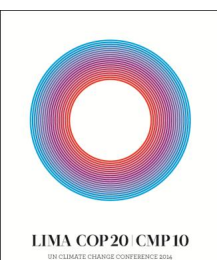

**Businesses :** Businesses can engage by...

- **joining partnerships or cooperative initiatives.** Cooperative action can be Action-oriented, Industry-orientated or Technology-oriented
- **Individual Action** : on Mitigation, Resilience, or Finance
- **Public Policy Action:** actively supporting the implementation of internal and public policies for combating climate change and developing low-carbon economies, especially on carbon prices

**Civil society – IIPP – Youth...:** Civil society can engage by...

- **Committing to GHG reductions**, enhance climate resilience;
- **Joining or creating large-scale cooperative** and multi-stakeholder initiatives;

# Communication and mobilization for Paris

## NAZCA = Non-State Actor Zone for Climate Action:

Launched in Lima, the NAZCA portal collects, showcases and tracks progress to highlight **the scale of individual commitments by non-State actors and cooperative action** involving both state and non state actors.

**NAZCA displays the stakeholders commitments** uploaded from data partners.

<http://climateaction.unfccc.int/>

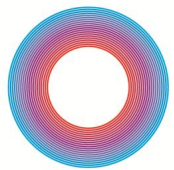

## LCAA Website:

Provides information on the LCAA along the year and in Paris and further details to **showcase LCAA labelled initiatives.**

The registered initiatives are assessed according to **criteria of the LCAA.**
